

Crude Glycerin Product Datasheet

Item number: 40-036

Typical Specification

Parameter	Minimum	Maximum	Average
Organic Matter (%)	45		52
Water (%)		49	44
Ashes (%)		7	4
Methanol (%)		2	5
PH (%)	5.8	7.5	6
Sulphates (%)		8	7

Latest Analysis (not guaranteed)

Parameter	Result
Organic Matter (%)	51.1
Water (%)	42.9
Ashes (%)	< 6.0

Origin of product:

Co-product obtained from B100 production, raw materials: UCO and animal fats including CAT1

Usage:

In accordance with EC294/2013, product should be used in the following applications:

- Biogas
- Technical purpose
- Distillation in waste water treatment etc.

The product is not applicable for feed.

Analysis conducted in the internal laboratory.

Delivery form:

ISO tanks

Origin:

Spain
