

## Mixed Vegetable Acid Oil Product Datasheet

Item number: 40-030

### General Information

The product is obtained as a by-product of oleochemical processes from vegetable oils. It can be used for energy, biodiesel and oleochemicals.

### Specification

Aspect (25 °C)		dark brown pasty to solid
Total Fatty Matter	%	min. 90
Moisture and impurities	%	max. 3
Free Fatty Acid	%	min. 30
Acidity Value	mg KOH / g	min. 59
Iodine Value	mg I <sub>2</sub> / g	min. 70
Pour Point	°C	max. 35
Specific Weight (20 °C)	g / l	approx. 0.9
Ash	%	max. 0.5
Calorific Power	J / g	35,000

### Delivery

- bulk in Road tankers
- bulk in ISO tanks
