Turpentine Oil from Pulping Process (TOPP) **Product Datasheet**

Item number: 60-028

General Information

Turpentine (also called spirit of turpentine, oil of turpentine, and wood turpentine) is a fluid obtained by the distillation of resin obtained from live trees, mainly pines. It is composed of terpenes, mainly the monoterpenes alpha-pinene and beta-pinene with lesser amounts of carene, camphene, dipentene, and terpinolene. It is sometimes colloquially known as turps.

Delivery

Bulk liquid in road tanker, rail tank wagon or ISO-container.
